Dear Josh:

I am presently preparing a new edition of my book on "Bacterial Genetics" to be published by W. B. Saunders Co. next spring. I would very much like to use the following material from your publications:

The time-lapse photographs from J. Bact., 75: 143, 1958.  
↑  
Fig. 1

You supplied prints of this previously for another publication of mine.

BRAUN

If this is agreeable with you, I shall ask your publisher for the required permission, ~~and, if available, I would appreciate an original print of the figure.~~

Thanking you in advance (and with apologies for this form letter),  
I remain,

With very best regards  
Very sincerely yours,

W

Werner Braun  
Professor of Microbiology

OK, of course  
John Lewis
